

Entryphone 200PTS Operating Instructions

Press and hold to speak to a caller,
release to hear them

Press to operate
the door release

The Entryphone 200PTS is a wall mounted, colour video, loudspeaking telephone. There are only two buttons on this unit, the large speech operation button on the right and the small door release button below it.

Automatic operation: The video screen on the 200PTS turns on automatically when called giving you a view of the caller. If you wish to speak to the caller press and hold down the speech button and then release the button to hear their reply. The speech circuits do not turn on until the speech button has been pressed once.

If you wish to admit a visitor press the small release button on the lower right of the unit. The unit will automatically switch off after a short time.

Manual Operation: The screen, the speech and the door release circuits will turn on if the large button is pressed.
